

Group Project - EDA

Exploratory Data Analysis of the AIDS Clinical Trial Dataset

Perform a comprehensive exploratory data analysis (EDA) of the dataset. Your analysis should at least include the following:

- Number of subjects and covariates available in the dataset.
- Univariate summaries (numerical and graphical) of each covariate in the dataset.
- Bivariate summaries (numerical and graphical) of variables in the dataset.
- Overall trends of the response variable relative to other variables.
- Any imbalances in the dataset.
- Any outliers in the dataset.
